

How to create fundraising page in Facebook:

1. In your personal page in Facebook, click on the tab at up right corner that says 'create'
2. Dropdown options will open then choose 'Fundraiser' selection

3. The pop out window will open that will ask you who are you raising money for? As screenshot shown below:

4. If you select 'Nonprofit', you will be able to search Walking Warrior Battling Breast Cancer page as your charity organization.
5. Then it would proceed to the next steps with couple of straightforward questions. You have to answer for the time frame that you are considering your fundraising event to last and also your goal.
6. You can edit your page with your own reasoning or use the suggested one from Facebook. ***The most important part after setting up this fundraising page is to share it as much as possible.***
7. This can be easily managed from the your personal Facebook page and also thank your donors by just commenting under their donation action.
8. If you click on the link of fundraising page that you have created, you will get to your page that you can manage everything and even post on your page.
9. Click on the dots (more) at right corner option to be able to edit anything your personal fundraising page.
